

STEPS:

1. LOGIN

- The National Association representative should login with their association username and password at: <http://results.ittf.link>

2. NAVIGATION

- Go to the top (drop-down) menu **PLAYERS** -> **Eligibility – New players** to register these players (*please note the visual aspect of the link may change in the future*):

- Note that this link is only visible for national associations if you have previously logged in with your credentials.
- If you don't know your login details contact Mr. Dimosthenis Messinis (dmessinis@ittf.com).

3. REGISTRATION

- To complete the registration, you have to fill all the necessary fields in the form, uploading also:
 - An official letter on the letterhead of the ITTF Member Association signed by the President or Secretary General of the Association (or equivalent) requesting the registration of the player.
 - A scanned copy of the current passport and/or citizenship certificate and/or proof of original date of residence in the new country.
 - The new passport and citizenship certificate must be uploaded once the player acquires it.

IMPORTANT NOTE

- Registration can be made without having yet acquired the new citizenship, and, in this case, the registration period will count from the moment you present the requested information/documentation, provided that the player does not compete again with the association of origin. The new passport and/or citizenship certificate should be provided as soon as the player gets it and, in any case, before the end of the waiting period. Players cannot represent the new association at listed events until they obtain it. In that case, the waiting period will be extended until obtaining such citizenship.

QUERIES

- If you have any queries, please do not hesitate to contact us at:
